

Fizz.im: Apps

“A suite of tools to add more functionality to your Fizz™: Library, Dashboard, Intranet, Segmentation or Ad Tracking Portal – ensuring that key information assets reach the heart of the organisation”

The Apps You Need To Solve Your Issues

Fizz™ Apps are a selection of extremely powerful online tools that work with each other to provide **customized solutions** for organisations with a **Fizz™ Library**.

Each App **works in unison** with the **Fizz™ Library** solution and **with all other Fizz™ Apps**, to provide **maximum flexibility** for each installation, enabling organisations to take on each App as required.

You don't need a **Fizz™ Library** installation to consider using the **Fizz™ Apps** solution – their flexibility means they **can also be built into their own websites**.

You can review each Fizz™ App in detail via the link below. [Dashboards](#)
